

Certificate no.:
TAA00003FK

TYPE APPROVAL CERTIFICATE

This is to certify:
that the Flow Transmitter

with type designation(s)
QTLD-X

issued to
Q&T Instrument Co., Ltd.
Kaifeng, Henan, China

is found to comply with
DNV rules for classification – Ships, offshore units, and high speed and light craft

Application:

Product(s) approved by this certificate is/are accepted for installation on all vessels classed by DNV.

Temperature	A
Humidity	B
Vibration	A
EMC	B
Enclosure	IP65/IP68

Issued at **Hamburg** on **2024-08-22**

This Certificate is valid until **2029-08-21**.

for **DNV**

DNV local unit: **Wuhan NB & CMC**

Approval Engineer: **Torsten Dzillak**

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid.
The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

LEGAL DISCLAIMER: Unless otherwise stated in the applicable contract with the holder of this document, or following from mandatory law, the liability of DNV AS, its parent companies and their subsidiaries as well as their officers, directors and employees ("DNV") arising from or in connection with the services rendered for the purpose of the issuance of this document or reliance thereon, whether in contract or in tort (including negligence), shall be limited to direct losses and under any circumstance be limited to 300,000 USD.

Product description

Electromagnetic Flowmeter Type QTLD-X

Protection: IP65/IP68

Nominal Pressure: 0.6/1.0/2.5/4.0 MPa

Supply Voltage: 24VDC/220VAC/3.6VDC

Output: 4-20mA/Pulse/RS485/HART

Approval conditions

The Type Approval covers hardware listed under Product description. When the hardware is used in applications to be classed by DNV, documentation for the actual application is to be submitted for approval by the manufacturer of the application system in each case. Reference is made to DNV rules for classification of ships Pt.4 Ch.9 Control and monitoring systems

Application/Limitation

Additional requirements in accordance with the applicable DNV Rules must be proven for the respective application.

Ex-certification is not covered by this certificate. Application in hazardous area to be approved in each case according to the Rules and Ex-Certification/ Special Condition for Safe Use listed in valid Ex-certificate issued by a notified/recognized Certification Body. Connections to piping systems shall be in accordance with relevant rules, ref. DNV rules for classification of ships Pt.4 Ch.6 Sec.9 Pipes, pumps, valves, flexible hoses and detachable pipe connections etc..

Type Approval documentation

Tests carried out

Applicable tests according to class guideline DNV-CG-0339, August 2021

Marking of product

Periodical assessment The scope of the periodical assessment is to verify that the conditions stipulated for the type are complied with, and that no alterations are made to the product design or choice of systems, software versions, components and/or materials. The main elements of the assessment are:

- Ensure that type approved documentation is available
 - Inspection of factory samples, selected at random from the production line (where practicable)
 - Review of production and inspection routines, including test records from product sample tests and control routines
 - Ensuring that systems, software versions, components and/or materials used comply with type approved documents and/or referenced system, software, component and material specifications
 - Review of possible changes in design of systems, software versions, components, materials and/or performance, and make sure that such changes do not affect the type approval given
 - Ensuring traceability between manufacturer's product type marking and the type approval certificate
- Periodical assessment is to be performed after 2 years and after 3.5 years. A renewal assessment will be performed at renewal of the certificate. END OF CERTIFICATE
